

## ***Network Notification***

**Notice Date:** August 16, 2018  
**To:** Ohio Medicaid and MyCare Health Partners  
**From:** CareSource®  
**Subject:** Signatures No Longer Needed for Medicaid Addendum Attachments for Provider Maintenance Updates  
**Effective Date:** July 16, 2018

---

We are pleased to announce that effective July 16, 2018, CareSource will no longer require signatures for Medicaid Addendum attachments for provider maintenance. This change will streamline the maintenance update process, as we will no longer route attachments for signatures, either for external signatures from providers, or internal signatures.

This change reflects direction from the Ohio Department of Medicaid, who no longer requires signatures on Medicaid Addendum attachments for maintenance updates to provider information. As of July 16, 2018, CareSource uses updated attachment forms from ODM.
