

## **Network Notification**

Date: December 31, 2013

Number: OH-P-2013-32

To: Ohio SNP Providers

From: CareSource

## Subject: SNP Prior Authorization for High Technology Radiology

Effective January 1, 2014, prior authorization will be required for high technology radiology services provided to CareSource Advantage<sup>®</sup> (HMO SNP) members.

The following outpatient, non-emergent diagnostic imaging procedures are included in this change:

- MRI/MRAs
- CT/CTA scans
- PET scans

These services currently require prior authorization for all other CareSource products. Requiring PA for CareSource Advantage members is simply an addition to the existing requirements.

## Prior Authorization process for advanced imaging procedures

There are two ways ordering physicians can obtain Prior Authorization from NIA for an imaging procedure:

- Online <u>www.radmd.com</u>
- By Phone **1-800-488-0134** (follow the options to obtain a Prior Authorization and select the option for advanced radiology prior authorization), Monday through Friday, from 8 a.m. to 8 p.m. EST

For more information on services that require prior authorization, please view the <u>Referrals and</u> <u>Prior Authorizations</u> section of the <u>Provider Manual</u>, or visit our <u>website</u>. If you have additional questions, please call Provider Services at 1-800-488-0134.
