All non-par providers must have an authorization prior to services rendered. Approved prior authorization payment is contingent upon the eligibility of the member at the time of service. Services billed must be within the provider's scope of practice as determined by the applicable fee/payment schedule and the claim timely filing limits. Authorizations are not a guarantee of payment, but are based on medical necessity, appropriate coding and benefits. Benefits may be subject to limitation and/or qualifications and will be determined when the claim is received for processing.
