

2023 CareSource Prior Authorization List

CareSource Dual Advantage™ (HMO D-SNP)

Prior authorization (PA) is how we decide if the health services listed below meet evidence based criteria for *medical necessity*. Your provider must get prior authorization for the listed services in order for you to receive benefits under your plan. The services also fall within the terms of your health plan. Emergency care does **not** need prior authorization.

If your provider is **not** part of the CareSource network, you or the provider must get prior authorization before you get **any service**, not just those listed below. Failure to do so may result in a denial of reimbursement. Exceptions include emergency services.

Services must conform to all terms and conditions of your plan including, but not limited to, eligibility, medical necessity, coverage restrictions, and benefit limitations.

Services That Require Prior Authorization

- All medical inpatient care (e.g., skilled nursing facility, acute, inpatient rehabilitation/therapy, long term and respite care)
- All out of network services
- All elective surgeries (e.g., outpatient and inpatient)
- All transplants and services related to transplants:
 - Services related to transplants include:
 - Transportation and lodging costs.
 - Bone marrow/stem cell donor search fees.
- Maternity: Delivery and inpatient stay if scheduled less than 39 weeks or if stay exceeds 48 hours for vaginal or 96 hours for cesarean delivery.
- Reconstructive and/or potential cosmetic services, including but not limited to:
 - Rhinoplasty
 - Most limb deformities
 - Cleft lip and palate
- All unproven, experimental or investigational items and services (e.g., life-threatening illness exceptions)
- Bariatric/gastric obesity surgery
- Clinical trials
- Some radiation oncology services
- Genetic testing in some situations
- Some laboratory services (e.g., Diagnostic tests, lab work and procedures)
- Gender dysphoria services including but not limited to gender transition surgeries.
- Hyperbaric oxygen therapy
- Non-emergent ambulance services
- Oral surgery that is dental in origin for adults
- Sleep studies outside of home setting
- Treatments and services associated to temporomandibular or craniomandibular joint disorder and craniomandibular jaw disorder.

Behavioral Health Services

- All inpatient services
- Partial hospitalization program (PHP) services
