

Programa Planning for Healthy Babies – Cuidado entre embarazos (IPC) de P4HB de CareSource

10/1/2026

INTRODUCCIÓN

Este es el **Formulario de CareSource Medicaid o Lista de medicamentos preferidos (PDL) 2026**. Esta lista puede ayudar a los proveedores en la selección de productos clínicamente adecuados y de menor precio. Todos los medicamentos de Medicaid de Georgia están cubiertos por CareSource. Esta es una lista de los medicamentos preferidos.

Estos medicamentos han sido revisados por el Comité de Farmacia y Terapéutica (P&T) de CareSource. La lista está actualizada al momento de la revisión.

No garantizamos la exactitud de los datos. Tampoco pretende ser una lista de naturaleza exhaustiva. No sustituye el conocimiento, la habilidad y el criterio del proveedor. Todos los datos de la lista son una guía. Los proveedores son totalmente responsables de todas las opciones de medicamentos.

La lista está sujeta a las leyes y normas específicas en cada estado. Estas pueden incluir, entre otras:

- Las relacionadas con opciones de medicamentos genéricos.
- Las categorías de sustancias controladas.
- Las preferencias de marca.
- Los medicamentos genéricos obligatorios (cuando corresponda).

No asumimos ninguna responsabilidad por las acciones o las deficiencias de ningún proveedor. Deben revisar los datos de los productos del fabricante de medicamentos o las referencias estándar.

PREFACIO

La lista está ordenada por secciones. Cada sección se divide por categoría de medicamento terapéutico, según su método de acción. Los productos están enumerados por nombre genérico. También figura el nombre de marca. Esto es solo a modo de información. A menos que el medicamento sea una inyección o un caso especial, se enumera la dosis, las presentaciones y las concentraciones.

COMITÉ DE P&T

Un comité nacional de P&T aprueba las terapias con medicamentos seguros y útiles.
Está formado por:

- Los directores médicos del plan.
- El personal de farmacia.
- Miembros de la comunidad médica.

DETALLES DE LA COBERTURA DE MEDICAMENTOS

Solo se puede cubrir una concentración, dosificación u otra formulación si se incluyen en la lista. No se cubren otras concentraciones/dosificaciones/formulaciones, por ejemplo: formas de dosis inyectables del producto. Los productos de liberación prolongada y retardada tienen su propia lista.

Metformina Glucophage

La lista de productos de liberación inmediata no incluiría el producto de liberación prolongada.

Metformina de liberación prolongada Glucophage XR

Un segundo listado muestra el producto de liberación prolongada.

Las formas de dosificación serán parte de la sección donde figuren.

Neomicina/polimixina B/hidrocortisona Cortisporin

Cortisporin solo está en la lista de ÓTICOS. Está limitado a solución y suspensión. No se puede asumir que la crema esté en la lista. Debería ser parte de la sección de DERMATOLOGÍA.

Autorizaciones previas (PA)

CareSource puede solicitar que los proveedores nos informen la razón por la cual se necesita un medicamento o una cantidad. Esto se llama una autorización previa (PA). CareSource debe autorizar esta solicitud antes de que un afiliado reciba el medicamento. "PA" significa que se necesita una autorización previa. Estas son algunas de las razones para una solicitar una PA:

- Existe un medicamento genérico o alternativo disponible.
- Podría haber abuso o uso indebido del medicamento.
- El medicamento necesita un manejo especial, supervisión o tiene limitaciones en el envío.
- Existen otros medicamentos que se deben probar primero.

Solicitudes de PA

Los asociados del sector salud pueden solicitar una autorización previa en línea o por fax. Obtenga más información en la página de Proveedores en **CareSource.com**. Es posible que no aprobemos una solicitud de PA para un medicamento. Si no lo hacemos, le diremos al afiliado cómo presentar una apelación.

Límites de cantidad

Algunos medicamentos pueden tener límites sobre cuánto se puede administrar por vez. "QL" se usa para indicar que hay un límite de cantidad. Los límites de cantidad se basan en las dosis sugeridas por los fabricantes de medicamentos. También se tiene en cuenta la seguridad del paciente. La terapia con analgésicos opioides puede tener límites de cantidad basados en las dosis recomendadas por los fabricantes de medicamentos y/o las regulaciones estatales.

Los límites de cantidad figuran en la lista a continuación.

Terapia escalonada

Es posible que los afiliados deban probar un medicamento antes de tomar otro. Esto se denomina terapia escalonada. Se debe probar un medicamento antes de que se apruebe el uso de otro. CareSource cubrirá algunos medicamentos solo si se sigue el protocolo de terapia escalonada. "ST" se usa en la lista cuando es necesario.

Sustitución por medicamento genérico e intercambio terapéutico

La sustitución por un medicamento genérico es una acción farmacéutica. Se administra una versión genérica en lugar de un producto de marca. La *letra cursiva* indica que hay un medicamento genérico disponible. Es posible que no todos los medicamentos genéricos estén disponibles en todas las concentraciones o formas de dosificación. Un medicamento de marca que tenga un producto genérico no pertenecerá al formulario. El producto genérico se cubrirá en lugar del producto de marca. La lista está sujeta a regulaciones estatales específicas y se aplican reglas sobre la sustitución por medicamentos genéricos.

Los medicamentos genéricos suelen tener precios más bajos que los de marca. Deben ser recetados primero si se siguen las normas. Los medicamentos genéricos de venta con receta están:

- Aprobados por la Administración de Alimentos y Medicamentos de EE. UU. (U.S. Food and Drug Administration, FDA), con el objetivo de garantizar la seguridad y la eficacia. Se fabrican bajo los mismos estándares estrictos que los productos de marca.
- Se prueban en humanos. El medicamento genérico debe ser absorbido a la misma velocidad que el producto de marca. Pueden diferir del producto de marca en tamaño, color y componentes inactivos. Esto no altera su uso.
- Se fabrican con la misma concentración y forma de dosificación que los medicamentos de marca.

Un medicamento genérico tendrá el mismo efecto y seguridad que el de marca.

DISEÑO DEL PLAN

La lista muestra un diseño cerrado de plan del formulario. Los medicamentos incluidos en la lista están cubiertos por el plan según se muestra. Ciertos medicamentos están cubiertos si se cumplen las normas de gestión de uso. Esto puede incluir ST, PA y/o QL. Las solicitudes de medicamentos que no cumplan con los estándares enumerados serán revisadas. Si un medicamento no está en la lista, puede solicitar una excepción al formulario para la cobertura. Las solicitudes de necesidad médica o excepción al formulario serán revisadas según medidas de PA o criterios estándar de indicación de medicamentos que no pertenecen al formulario. Un afiliado o proveedor puede solicitar una excepción al formulario. Complete el formulario que se encuentra en la página de la Lista de Medicamentos Preferidos (PDL) en **CareSource.com**.

AVISO

Los datos que figuran en esta lista son privados. La información no se puede copiar sin una autorización por escrito. ©2024. Todos los derechos reservados.

Esta lista incluye medicamentos con nombre de marca que son marcas comerciales o marcas registradas.

CareSource no opera las organizaciones que se incluyen en este documento. CareSource no es responsable de la confiabilidad del contenido. Estas listas no son una recomendación por parte de CareSource.

Nota: Esta lista se actualiza regularmente. Los cambios pueden mostrarse antes de su fecha de entrada en vigor.

List of Abbreviations

1: Preferred generic product

2: Preferred brand product

ACA: Affordable Care Act

AR: Age Restriction. For certain drugs, the drug may be covered for members in a certain age range without a prior authorization.

OTC: Over-the-Counter. An OTC drug is a non-prescription drug.

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
