Downtown Redevelopment**
(Exclusive to the Dayton region)

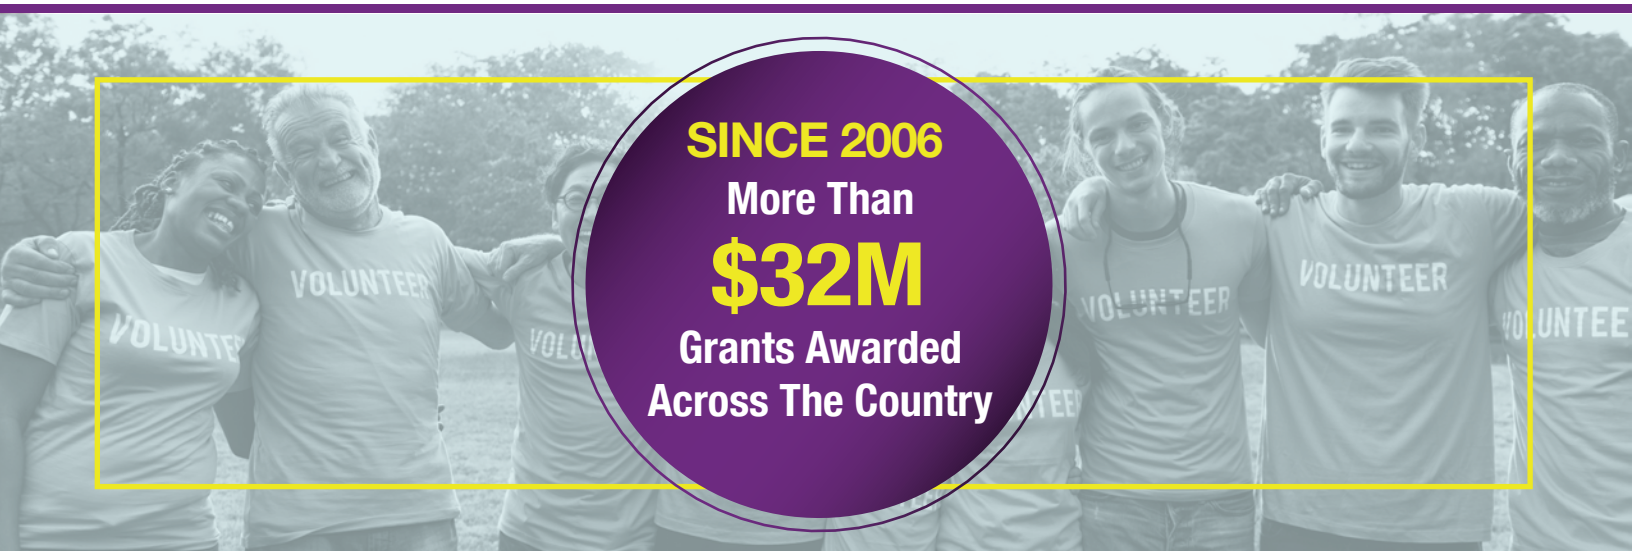

**Support Individuals With
Disabilities and Other
Complex Populations to
Live Independently**

**Improve Maternal, Infant
and Child Health**

**21st Century
Workforce Development**

SINCE 2006
More Than
\$32M
Grants Awarded
Across The Country

DAYTON COMMUNITY INVESTMENT

With CareSource being Headquartered in Dayton, Ohio, we are committed to investing and making an impact in the Dayton community.

Supported Wright State University's "Take Flight" Program; a program that provides wraparound supports to help reduce the financial burden for economically challenged, racially diverse students.

Supported Sinclair Community College's TartanTOPS program. The Tartan TOPS (Transition Option in Post-Secondary Education) provides a career/educational pathway for students with intellectual disabilities (such as autism, Down's Syndrome, etc.). These are generally students whose disability is substantial enough to prevent them from pursuing traditional educational opportunities, but not severe enough to warrant significant care.

EMPLOYEE ENGAGEMENT

3,004 volunteering experiences for a total of **11,327 volunteer hours** that impacted **388 organizations**

Mass Food Distributions **579,848 lbs of food to 7,230 individuals** in 3 counties through multiple food distributions

FLORIDA GRANT CHALLENGES

\$450,000 in grants given across the state of Florida

61 Florida nonprofit organizations nominated

51,241 votes cast from the public

"We're so proud to have been selected and will use the grant money to help support us in helping deserving, low-income students escape the cycle of poverty through education."

- Take Stock in Children, Grant Challenge Award Winner

STATE SPOTLIGHT

Ascension St. Vincent Foundation – Indiana

- **Program Title:** Peyton Manning Children's Hospital at Ascension St. Vincent Pediatric Nurse Navigation Program
- **Overview:** The new Pediatric Nurse Navigation Program will create a single point of contact for families of pediatric patients who need help navigating the complicated healthcare system, especially children who are facing complex and/or chronic conditions. It will better facilitate uninterrupted care by working with families to reduce delays in treatment, streamline care, avoid hospital readmissions, and improve communication with clinicians and care teams. The Pediatric Nurse Navigators will also be instrumental in reducing the stress and anxiety frequently associated with the healthcare experience by meeting the developmental, psychosocial, and emotional needs of patients and families.
- *"From the first day I talked to her, (Anita, PMCH Pediatric Nurse Navigator) she has been nothing but supportive. She's helped a lot with mix-ups at the pharmacy and trying to get my son the medications he needs. Sometimes it's so confusing about what appointments are when, so she has been able to help with that too. She breaks down the doctor's big words to a parent level and helps me understand what is going on. When I first met her I broke and cried. I was just at a loss of what to do - but working with Anita gives me hope!"*

Appalachian Children Coalition – Ohio

- **Program Title:** Appalachian Children Coalition Expansion
- **Overview:** The grant from CareSource will support the development of school health centers delivering primary care and behavioral health services, prevention programs focused on teen suicide and other prevalent issues, ongoing work to encourage individuals to pursue behavioral health careers in the region, and relevant research on best-practice models to address behavioral health challenges.
- *"We are so pleased that CareSource has chosen to support our efforts," said Randy Leite, Appalachian Children Coalition Executive Director. "They have shown a strong commitment to children in the region, and we are honored that they have chosen the Appalachian Children Coalition as one piece of that commitment."*

Rescuing Hope and the Georgia Sheriffs' Association – Georgia

- As part of this newly formed partnership funded by CareSource, experts and counselors from Rescuing Hope will train rescue responders on how to best approach trafficking victims as well as customize programming for the five Georgia Sheriff's Youth Homes across the state. At-risk youth will learn tactics, preventative measures and protection resources in order to not fall prey to human trafficking predators.
- *"We created the GRACE Commission in 2019 to shine a light on the evil industry of human trafficking in Georgia," said First Lady Kemp. "I want to thank Rescuing Hope, the Georgia Sheriffs' Association and CareSource for coming together with team work that matters and putting a dent in human trafficking. This announcement will change lives."*
